SA**

Computer and Technology Group

About the group

The Retire Active SA Computer and Technology group is dedicated to helping members understand and enjoy computers, so they're empowered to use technology in their lives.

From desktops, laptops, tablets, iPads and smartwatches to Apple or Android smartphones, the group provides members with the practical skills they need to confidently navigate a range of devices. In addition, the group also helps members learn about the technologies that interface with their devices, for example, computer systems either through direct cable connection, network systems or wireless connections.

The cost to attend is \$5 per session to cover ancillary costs. New members and visitors are most welcome.

Group details

The Computer and Technology group meet at 10.30am (for an 11.00am start), on the third Friday of the month at the Mile End Church of Christ Hall, 2 Danby Street, Torrensville.
